

## Manual Calibration of the AccurioPRO C4080 PRESS with Konica Minolta Color Centro.

1. Open KM **Color Centro / Calibration**
2. Connect to your AccurioPRO Press
3. **Paper Type / Screen settings**

4. **Select Accuracy measurement**
5. **Print Chart** on Coated Matt 150gsm
6. **Measure Chart / Start**
7. **Place Spectrophotometer in the cradle** and ensure it first 'reads' the white spot.
8. When it is ready to measure the color bars **Place Spectrophotometer on measurement guide** and read the 5 strips in the order shown.
9. **Confirm calibration** once all 5 colour channels are scanned.
10. **Test** by printing KM Test chart if required.
